- 1) _____
- 2) _____
- 3) _____

REWARDS

After earning each position, write down a gift you'd like to buy for yourself.

- Anything \$1,000 (or less)
BRONZE _____
- Anything \$10,000 (or less)
SILVER _____
- Anything you desire
GOLD _____

How to use the SCORE SHEET

- 1) Your *Why* is the single most important reason in starting your business, and the key ingredient to your success. Before beginning game play, complete "YOUR WHY" and "GOALS" section. Wait to fill in "REWARDS" section until after earning each position.
- 2) There are 3 categories of scoring:
 - Customers
 - Personal Growth (PG points)
 - Business Partners
- 3) 6 Customers and 6 PG points are required to complete Qualify and move onto the Bronze position.
- 4) 7 additional Customers and PG points are required to win the game. These points may be acquired throughout all positions.

their road to success and therefore
deserve this monumental achievement.

- 5) INSURANCE points, though not required, may be needed to maintain your position. When INSURANCE points are filled out completely, and if the player's spinner lands on this category, they may draw a card from the category of their choice available at their current position. Players cannot acquire INSURANCE points until required points are completed.
- 6) After completing the Qualify position, players will begin building their team at the Bronze position. *This score sheet is a hypothetical example. It is assumed that each Business Partner recruited will get their own customers.* 4 frontline Business Partners are required to complete Bronze and move onto the Silver position. Players will continue build these 4 legs throughout the game. (Note: no additional Customers or PG points are required to move on.)
- 7) At the Silver position players will continue building their team. 28 additional Business Partners are required to complete Silver and move onto the Gold position. (Note: no additional Customers or PG points are required to move on.)
- 8) At the Gold position 72 additional Business Partners are required. Players must also complete all remaining required Customers and PG points to move onto the Platinum position. If all Business Partner requirements are complete, and the player's spinner lands on Team Building, Leadership, or Recruiting, the player may draw a card from the category of their choice.
- 9) **WINNING THE GAME** At the Platinum position a total of 104 Business Partners, 13 Customers, and 13 PG points have been earned. The first player to reach Platinum position wins the game.
